

# ILLEGAL DUMPING IS RUBBISH

Properly dump your garbage to reduce California's stormwater pollution!  
Five easy tips to reduce pollutants:

## APPLIANCES

When illegally dumped, appliances can release toxins that get washed away with rain and end up in our water bodies, polluting our water.

- TIP 1: Donate or recycle appliances.**
- TIP 2: Properly dispose at your local dump.**

## FURNITURE

When dumped on the side of the roadway all furniture not only causes a safety hazard, but can also breakdown and get into local water bodies, causing pollution.

- TIP 3: Contact local waste management for bulky pick-up or locate a dump for drop-off.**

## VEGETATION

Improperly dumped vegetation can flow to waterways, creating an imbalance of nitrates in water and thus harm aquatic life.

- TIP 4: Tarp loads to reduce biodegradable waste on highways.**
- TIP 5: Use a green waste bin or consider composting biodegradable waste.**

Don't risk a \$10k fine & up to 6 months in jail

Simple changes in disposal of rubbish can help keep California's highways, waterways and bodies of water clean!
